

DVS Guitar by Dream Vortex Studio

DVS Guitar is based on a sampled guitar and includes Overdrive, Reverb and Flanging. It's good for leads and heavy sounds, and very realistic if your good with a pitch wheel controller.

This plugin is Copyright ©2005 – 2008 Dream Vortex Studio, you may not distribute without my permission, whether by email, on your web or FTP site, Dream Vortex Studio cannot be held responsible for any loss or damage caused by the use of the software, use of the software is entirely at your own risk.

Enjoy :)

Regards,
Martin Best.
